

Grip/Velcro/Rip-Wrap Cable Tie

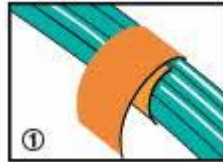

The BayLan Grip Tie is a low profile, the Grip Tie features quick release for repetitive access to cable and wire. It can be opened and closed numerous times without failure. The Grip Tie is reusable, adjustable, releasable and easy to install. Its design provides ease of installation in tight areas such as low voltage cables instead of nylon wire ties or tape, perfect for Home theatre, Security or telecommunications closets and will not get caught on other cables. The tie also will not cause damage to Category 5 and Category 6 cable or fiber optic cable since it cannot be over-cinched.

Many manufacturers are recommending "soft-hold" hook and loop ties for use this sensitive data cables.

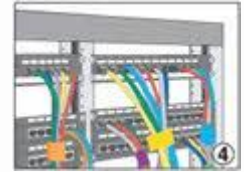

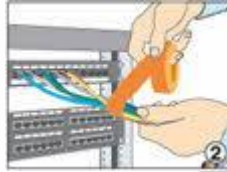

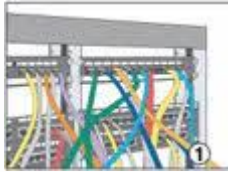

Very inexpensive and weather resistant, it can also be used in nurseries, vineyards, tree farms, florists and gardening.

- Re-usable
- Easy to install
- Cable Friendly
- Superior Strength
- Thin construction
- Flexible
- Reduces cable damage
- Reduces labor costs
- Improves efficiency

For custom cut length on 25Mtr reel. Ideal for job site applications, desired lengths can be cut on the spot.

EconoCinch Straps

EconoCinch has many uses; bundling cables, hoses, and strapping equipment to desks or carts. The loop lock acts like a pulley, giving you leverage to pull the strap as tight as needed. The non-metallic buckle is safe to use around electrical and magnetic.

Features

- Especially useful where an extra tight hold is desired

Specifications

- Available in different Lengths, Sizes & Colors

Installation

Hook and Loops Wraps

Economical, reusable ties for cable control

Features:

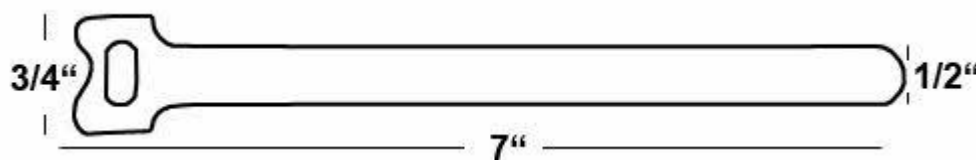

- Crafted from durable nylon loop and poly hook base
- Easy tension control for use on delicate lines
- No degradation to material even with long-term re-use
- Not limited to cable control but ideal in a range of applications
- Various colors available for easy color-coding item identification

002520

BayLan Hook and Loop Wraps will be the optimal solution to cable and item management, providing you with a method to secure and identify contents quickly, while also ensuring easy access for re-work and maintenance. These self-gripping fasteners are easily looped around cables or wires, where the tip is then fed through a slit in the head, allowing the length to be pulled to the exact tension you desire, leaving you in full control. Hook and loop bond is an extremely reliable fastener

SPECIFICATIONS

- Easy to install - just snug around cables or fiber optics and touch one side of the strap (the "hook" side) to the other (the "loop" side) - no buckles or snaps to get in the way
- Re-usable - simply peel hook and loop sides apart with your hands
- Weather proof, never rusts - interior and exterior use
- Available in various colors

- Available in different Lengths, Sizes & Colors
