

The Brightest Choice of Networking & Communication

**Fiber Cable Multimode 62.5/125um,  
Dual FC / Dual SC  
APC Polish**

The demand for more bandwidth puts a continual strain on a Local Area Network. BayLan fiber optic cable offers superior solutions. Boasting an almost limitless bandwidth, this cable technology will support your well into the future.

BayLan 62.5/125 Duplex Multimode fiber optic cables are constructed of the highest quality components. These fiber optic patch cables feature OFNR jackets along with FC and SC style connectors. Our fiber optic cables are functionally tested to guarantee top performance upon delivery. By utilizing Baylan's fiber optic patch cables, critical network uptime is assured.

**FEATURES:**

- Used to connect patch panels and/or network devices that utilize FC or SC style connectors and require 62.5/125 multimode cabling
- OFNR jacket complies with stringent building codes
- Ceramic ferrules provide precise alignment
- A/B or 1/2 Markers are included for each fiber which identify transmit and receive ports ensuring correct system connectorization
- Connectors utilize a APC polish
